

POMODORI SAN MARZANO DOP

GENTILE

Gragnano, Italy

SENSORY PROFILE

San Marzano DOP tomatoes originate from the small town of San Marzano sul Sarno, near Naples, Italy, and were first grown in volcanic soil in the shadow of Mount Vesuvius. Gentile's San Marzanos come directly from the same volcanic soil, rich in potassium. San Marzano's are famous for their sweetness and low acidity making them ideal to accompany meats and cheeses.

TRADITION

Each jar of Gentile tomatoes is a treasure chest preserving the authentic taste of a carefully selected raw fruit processed in the same way that mother Maria learned from her family and which today is shared with those who work alongside her.

The tomatoes are processed within a few hours of harvest. Each jar filled by hand and individually controlled, free of artificial preservatives. Following the pasteurization process, jars are maintained in a cool spot for 40 days before being packed into cartons.

RETAIL SIZE	1kg
ITEM NO	GP2093
CASE	6 jars
