

RED SHATTA

kamā

KAMĀ

Amman, Jordan

SENSORY PROFILE

Made from fresh red chili peppers local to Jordan, a dash of this shatta is a hot, daring addition to any dish and completes any table spread. This is used on top of most Levantine dishes; liken it to harissa in Tunisia! Add to anything: eggs, hummus, falafel, a spoonful to a mezze, or spread over a sandwich for an intense flavor. Shatta is to be stored in dry storage and at room temperature before opening, and refrigerated after opening.

TRADITION

Kamā was founded with the mission to empower, and give employment, to local Jordanian women who transform high quality raw ingredients into Arab and Levantine delights. Kamā celebrates hands-on food experiences, tradition, and seeks to create a space where people can gather around the “sufra”—no matter where you live.
